Enrichment: Clubs

Here at Ark John Archer, we continue to develop an enrichment programme that works hand-in-hand with our curriculum and reflects the passions and interests of our school community. We offer our pupils the chance to try their hand at performing arts, develop a conscious approach to health and fitness, build everyday skills and explore potential career paths. The enrichment programme aims to increase pupil participation by removing or reducing parental expenditure, drawing upon the skills and passions of our own staff team to provide quality enrichment opportunities.
